

Contents

Bulletin of the Agricultural Chemical Society of Japan.

Sogo Tetsuo: Studies on the Effect of Dibasic fatty acids on putrefactive bacteria, Bac. typhosus and vib. cholerae.	1
Masami OKE: Bambillupeol, a Colorless Crystallizable Constituent of the Alcoholic Extract of the <u>Domestic Cocoon</u>	3
Mitunori WADA: Über die Bildung des Harnstoffs aus Urandiamiden, Hydantoinen und aus Eiweißkörpern durch Einwirkung von Enzymen (Reduktasen) in neutraler Lösung.	11
Kazuo YAMAFUJI: Untersuchungen über die Enzyme von Bombyx mori L. IV. Mitteilung—Über die Phenolasen des Blutes.	13
Kazuo YAMAFUJI: Untersuchungen über die Enzyme von Bombyx mori L. V. Mitteilung—Über die Saccharase und Maltase des Blutes.	15
Kiyoko TAKEMOTO: Synthesis of	23
Toyotsuka MITSUOKA: Studies on Amygdalinase	33
Hisasi ARIYAMA: On the Glycogen Content of the Liver of Pigeons and Rats by B ₁ -Avitaminosis.	41
Kazuo YAMAFUJI: Untersuchungen über die Enzyme von Bombyx mori L. VI. Mitteilung.	51
Masayoshi OKAWA: Nitrogen Value of Caseinins (amino acid).	61
Isami TACHI: Researches on the Electrolytic Reduction Potentials of Organic Compounds. Part XVII.—On the Electrolytic Reduction of Camphor, again.	67
Tomotsune TAJIMA and Tsuneko MATSUMURA: Histochemische Untersuchung der Substanz des Fuchols (II. Mitteilung).	83
Yukitaro KAMI: Studies on the Proteins Contained in Mulberry Leaves. Part IV.—A Comparative Study of the Digestibility of the Proteins Contained in Mulberry Leaves.	87
Yoshiko KIKUCHI and Yonekichi YAMAGUCHI: Studies on the Proteins Contained in Mulberry Leaves. Part V.—A Comparative Study of the Digestibility of the Proteins Contained in Mulberry Leaves.	97

Contents

Sogo TETSUMOTO: Sterilizing Action of Acids (V)—Sterilizing action of dibasic fatty acids on Putrifactive bacteria, <i>Bac. typhosus</i> and vib. cholerae.	1
Masami OKU: Bombilupeol, a Colorless Crystallizable Constituent of the Alcoholic Extract of the Domestic Cocoon.	9
Mitunori WADA: Über die Bildung des Harnstoffs aus Uraminosäuren, Hydantoinen und aus Eiweisskörpern durch Einwirkung von Enzymen (Reduktasen) in neutraler Lösung.	11
Kazuo YAMAFUJI: Untersuchungen über die Enzyme von <i>Bombyx mori</i> L. IV. Mitteilung.—Über die Phenolasen des Blutes.	15
Kazuo YAMAFUJI: Untersuchungen über die Enzyme von <i>Bombyx mori</i> L. V. Mitteilung.—Über die Saccharase und Maltase des Blutes.	19
Kunijiro TAKEUCHI: Synthesis of 5-Oxy-camphor.	25
Toyosaku MINAGAWA: Studies on Amyrosynthase.	33
Hisasi ARIYAMA: On the Glycogen Content in the Liver of Pigeons and Rats by B_1 -Avitaminosis.	47
Kazuo YAMAFUJI: Untersuchungen über die Enzyme von <i>Bombyx mori</i> L. VI. Mitteilung.	57
Masayoshi OGAWA: Nutritive Value of Canavanin (amino acid)	61
Isamu TACHI: Researches on the Electrolytic Reduction Potentials of Organic Compounds. Part XVIII.—On the Electrolytic Reduction of Camphor, again.	62
Tomotsune TAIRA and Tsuneo MASUZIMA: Hochsiedende unverseifbare Substanz des Fuselöls (II. Mitteilung).	63
Yukitaro KISHI: Studies on the Proteins Contained in Mulberry Leaves. Part IV.—A Comparative Study of the Digestibility of the Proteins Contained in Mulberry Leaves.	67
Yukitaro KISHI and Yonekichi YOKOTA: Studies on the Proteins Contained in Mulberry Leaves. Part V.—On the Quantitative Changes of All the Proteins (Considered Collectively) Contained in a Given Quantity of Fresh Mulberry Leaves, as Considered with Relation to the Growth of these Leaves.	69

Sator OHDAKE: Isolation of Orizantin (Antineuritic Vitamin). Third Report.	71
Takeo NITO: On the organic Bases of the Flue-Cured Tobacco.	77
Kotaro NISHIDA: Biochemical Studies on "Sotetsu" the Japanese Sago Plant. I.—Changes of the General Composition of "Sotetsu"-seed during its Ripening.	78
Arao ITANO and Akira MATSUURA: Investigation on the Influence of Ultraviolet Rays on the Physiological Activities of Azotobacter.—I. On the Lethal Action of Ultra-violet Rays on Azotobacter Chroococcum.	81
Yoshikazu SAHASHI: On the Effect of Linoleic Acid and Yeast upon the Growth of Rats on High Fat Diet.	82
Umetaro SUZUKI, Waro NAKAHARA and Yoshikazu SAHASHI: The Occurrence of Vitamin E in soy Bean Oil.	87
Chikafumi ICHIKAWA: Über die Verteilung der Manganverbindung im Boden Japans, und ihre Beziehung auf die Fruchtbarkeit.	90
Masuzo SHIKATA and Koichiro KITAO: Researches on the Electric Boundary Layer Disturbance. Part IV.—The Effect of the Alternating Electric Field on the Permeability Potential of Membrane.	90
Masuzo SIKATA and Takeo KOHSAKA: Chemical Researches on the Pulp Woods in Karafuto. Part. V.—Cooking and Spinning Test of Karafuto Fir.	91
Eiichi SOMEKAWA: On the Production of Seborrhea in Rat by Feeding with Whale Oil. Part I.	93
Arao ITANO and Akira MATSUURA: Investigation on the Influence of Ultraviolet Rays on the Physiological Activities of Azotobacter.—II. On the Stimulation of Azotobacter Chroococcum by Ultra violet Rays.	101
Kiyotoki KARO: Studies on the Digestion of the Carbohydrates Contained in Mulberry Leaves by Silkworms. Part. II.—On the Digestibility and the Quantity of the Digestion of the Carbohydrates Contained in Mulberry Leaves in Different Stages of Growth.	102
Kenzi TAKEDA: Chemical Studies on "Bukuryo", Sclerotia of <i>Pachyma Hoelen</i> RUMPH. (IV).—Discussion of the Relation among β -Pachyman and Related Compounds.	103

Kenzi TAKEDA: Chemical Studies on "Bukuryo", Sclerotia of <i>Pachyma Hoelen</i> RUMPH. (V).—Nutritive value of <i>Pachyman</i>	103
C. Y. CHEN: On the Non-identity of Adenine and Vitamin B ₁	105
Koji OKANO, Tadao ABE and Iwao OHARA: On the Isolation of Apigenin from Manchurian Kaoliang (<i>Andropogon sorghum</i> , Brot).	109
Arao ITANO and Y. TUJI: Investigation on Agar. (Continued). Physico-chemical Properties of Agar and their Influence on the Growth of Microorganisms.	111
Kazuo YAMAFUJI: Untersuchungen über die Enzyme von <i>Bombyx mori</i> L. VII. Mitteilung.—Über die Eierkatalase (1).	112
Kazuo YAMAFUJI: Untersuchungen über die Enzyme von <i>Bombyx mori</i> L. VIII. Mitteilung.—Über die Eierkatalase (2).	116
Kazuo YAMAFUJI: Untersuchungen über die Enzyme von <i>Bombyx mori</i> L. IX. Mitteilung.—Über die Proteasen und Amylase des Blutes (2).	119
Matsuo TOKUOKA and Hitoshi MOROOKA: Über die physico-chemische Eigenschaft des Harnstoffnitrats.	127
Waro NAKAHARA and Fumito INUKAI: Studies on Dietary Requirement for Lactation.—II, Presence of Lactation Promoting Substance in Liver Extract.	129
Fumito INUKAI, Tuneto HIGASHI and Waro NAKAHARA: On the Occurrence of Vitamin B ₂ (=Vitamin G) in Sake and Sake-Kasu (Pressed Cake).	135
Michiyo TSUJIMURA: Isolation of Catechin, Tea Catechin II or Gallo-Catechin from Green Tea.	140
Matsuo TOKUOKA: Über die Hygroskopicität der Düngemitteln.	148
Umetaro SUZUKI, Waro NAKAHARA and Yoshikazu SAHASHI: Further Evidence for the Occurrence of Vitamin E in Soy Bean Oil.	149
Kenzi TAKEDA: Chemical Studies on "Bukuryo" Sclerotia of <i>Pachyma Hoelen</i> RUMPH. (VI).—Hydrolytic Oxidation Products of β - <i>Pachyman</i> by Conc. Sulphuric Acid and Conc. Nitric Acid.	152
Hideo KATAGIRI and Kakuo KITAHARA: The Characteristics of the Lactic Acid Bacteria Isolated from Moto, Yeast Mashs for Saké Manufacture. Part I.—The Fermentation Products From Koji Extract.	153
Hideo KATAGIRI, Kakuo KITAHARA and Kanji FUKAMI: The Chara-	

cteristics of the Lactic Acid Bacteria Isolated from Moto, Yeast Mashers for Saké Manufacture. Part II.—Obserbation of Fermentable Sugars and Some Cultural Conditions.	154
Hideo KATAGIRI, Kakuo KITAHARA, Kanji FUKAMI and Minami SUGASE: The Characteristics of the Lactic Acid Bacteria Isolated from Moto, Yeast Mashers for Saké Manufacture. Part III.—The Fermentation Products from Pentoses and Hexoses.	155
Hideo KATAGIRI, Kakuo KITAHARA and Kanji FUKAMI: The Characteristics of the Lactic Acid Bacteria Isolated from Moto, Yeast Mashers for Saké Manufacture. Part IV.—The Classification of the Lactic Acid Bacteria.	156
Masami OKU: On the Natural Pigments of Raw Silk Fibre of the Domestic Cocoon (Part VII).—On the Pigments of the Green Cocoon (<i>Bombyx mori</i> . var <i>Seihaku</i>).	158
Kenji TAKEDA: Chemical Studies on "Bukuryo" Sclerotia of <i>Pachyma Hoelen</i> RUMPH (VII).—The Production of Tetracetyl Glucuronic Acid by Acetolysis of β - <i>Pachyman</i> in the Presene of Perchloric Acid.	160
Kitsuji NISHIDA, Hideo HASHIMA und Takuichi FUKAMI: Polysaccharide (VIII).—Ein neues Kohlenhydrate "Xyloglukuronid" aus <i>Kadsura japonica</i> Dun.	162
Masami OKU: On the Natural Pigments of Raw Silk Fibre of the Domestic Cocoon (Part VIII).—Isoquercitrin from Mulberry Leaves. ...	164
Sogo TETSUMOTO: Sterilizing Power ef Fruits Juice and Condiments on <i>Bac. Typhosus</i> and <i>Vib. Cholerae</i>	166
Waro NAKAHARA, Fumito INUKAI and Shu KATO: Liberation of Vitamin B ₂ (Vitamin G) Adsorbed on Acid Earth by the Action of Pancreatin.	176
Suttekiti MARUYAMA: Isolation of Vitamin C from Vegetables and the Relations between Vitamin C and Ascorbic Acid.	184
Matuo TOKUOKA: Kationenumtausch an den Tonen (I. Mitteilung).	192
Kotaro NISHIDA and Aritomo YAMADA: Biochemical Studies on "Sotetsu", the Japanese Sago Plant. II.—On the Chemical Constituents, especially the Sex Differences of "Sotetsu"-Stems.	193
